

ABSTRACT

Disclosed are novel pyrazole derivatives which are free of phytotoxicity to corn and can control a broad range of cropland weeds at a low dosage and herbicides containing them, and the present invention provides pyrazole derivatives of the general formula (I), or salts thereof,

wherein Q is H,  $-\text{SO}_2-\text{R}^1$ ,  $-\text{CO}-\text{R}^1$  or  $-\text{CH}_2\text{CO}-\text{R}^1$ , in which  $\text{R}^1$  is a  $\text{C}_1-\text{C}_6$  alkyl group, a  $\text{C}_3-\text{C}_6$  cycloalkyl group, a  $\text{C}_1-\text{C}_6$  haloalkyl group or a phenyl group which may have a specific substituent, and herbicides containing these pyrazole derivatives or salts thereof as active ingredients.
